

January 29, 2007

HKM has been delayed over the past two months as we continue to fill in holes from the previous engineering efforts.

We have added a section to our website that includes feedback received from corridor residents during our door-to-door survey as well as comments received in response to the Public Information Meeting held in October. These comments are now included on our website [www.hkminc.com/russell/index.html](http://www.hkminc.com/russell/index.html). Click on the "Get Involved" tab on the left and read through to the paragraph regarding public comments.

While your comments are welcome throughout the process, please remember that formal comments will be taken on the Draft Environmental Impact Statement once that is prepared and distributed. Comments received during the development of the Draft Environmental Impact Statement will be considered, but no formal response will be provided. Responses will be provided to each of the comments received on the Draft Environmental Impact Statement.

Due to the delay in receiving necessary data from the previous engineering efforts, we currently anticipate an Internal Draft Environmental Impact Statement to be available for agency review in April, and a full public Draft by mid-summer.

We have had numerous additions to the mailing list and will continue to add through the final phases of the project. Contact me at [jpeterson@hkminc.com](mailto:jpeterson@hkminc.com) to have a name added to the list.

Thanks!

Jennifer
