DOWL HKM

Computer Aided Drafting & Design (CADD)

Our extensive CADD capabilities include the capacity to merge drawings provided by Geographic Information Systems (GIS) and extract various layers from the map depending on the needs of the project. The CADD stations provide extensive mapping and data management tools, and use spreadsheets, word processing, and databases to prepare reports and documents.

Services Provided:

20+ AutoCAD Stations

Provide drawings in AutoCAD Land Development Desktop, CAD Overlay, and Microstation/GEOPAK

Survey Field Data Download/Upload Capability

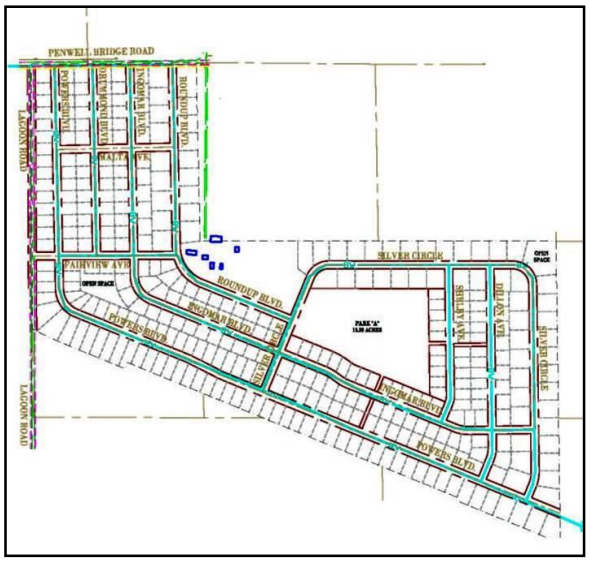
Color Plotting Capability

Water Resources

Dam Rehabilitation

Structural

Transportation

Utilities/Process Piping


Property Research and Mapping
